

**The MARYLAND  
HEALTH CARE COMMISSION**

**EHR Product Portfolio - Vendor List**

This list provides information regarding electronic health record (EHR) vendor participation in the Maryland Health Care Commission's (MHCC) EHR Product Portfolio (portfolio). The MHCC invited approximately 266 vendors that offer complete nationally certified ambulatory products whose contact information was easily accessible on their websites to participate in the portfolio (for more information about national certification, visit <http://onchpl.force.com/ehrcert?q=CHPL>.) After several requests for information, roughly 58 vendors submitted letters of intent to participate in the portfolio, and about 40 vendors submitted the information required to be included in the portfolio. Among vendors participating in the portfolio, roughly 18 indicated they are participating with the statewide health information exchange, Chesapeake Regional Information System for Our Patients (CRISP).
